

Our biggest update ever, version 3.0 | Tealstreet x Coinbase

Description

Introducing Tealstreet 3.0: Our Most Significant Update Ever

We're beyond excited to announce the launch of **Tealstreet 3.0**, a major milestone in our journey to provide the most innovative tools for traders. This update is our largest yet, and for the first time, we're expanding beyond derivatives, introducing **spot trading** in partnership with **Coinbase**, a trusted leader in the crypto space since 2012. By integrating Coinbase into our ecosystem, we're bringing a whole new level of trading opportunities to our community.

Why Coinbase?

Coinbase's reputation for security, compliance, and trust is unmatched, making them the perfect partner as we expand our platform. With Tealstreet 3.0, users will have access to both sides of Coinbase's derivatives offerings:

- **Perpetual contracts** for approved international users.
- **CFTC & NFA-regulated futures** for approved U.S. residents.

We're thrilled to bring you this seamless integration, enabling more options, more flexibility, and more ways to trade—all in one place.
